REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Plaistow:

It gives me pleasure to submit my first report of the schools of Plaistow.

The school year begins July 1 and ends June 30. The year with which this report deals ended in June 1927, and as I took up the work in March my report will be limited in some respects. I have found the schools in good condition and have tried to continue the work so well begun by your former superintendent.

There were 260 different pupils enrolled in the schools last year. The enrollment in the previous year was 272. The attendance averaged 92.9 per cent of the membership. The average for the state during this year was 94.57. Epidemics of sickness during spring and winter months caused our attendance to fall below the average. 24 pupils completed the work of the 8th grade.

No one realizes better than I that a Superintendent's first year in a district should be a time of getting acquainted, rather than a period of radical changes. With this in mind, I have tried to become familiar with matters pertaining to schools and to follow as closely as possible the plans already worked out.

Various standardized tests have been used to check school progress. These tests show that our schools as a whole are up to the standard attainments of schools in similar communities over the country.

The general aim of education is to train all pupils in those qualities of life and character which will make them good and efficient citizens in the community, state and nation. The objectives of education in a democracy have been

summarized by a committee of American teachers under seven headings:

1. Command of Fundamental Processes.
2. Health.
3. Worthy Home Membership.
4. Training for Vocation.
5. Training for Citizenship.
6. Worthy Use of Leisure.
7. Ethical Character.

The teachers have co-operated with the superintendent in an attempt in unifying the work of the schools in accomplishing these objectives. It is our purpose to make our educational activities a means of achieving these purposes. For each individual pupil, the work of education may be considered as directed toward developing purpose and personality for the good of the pupil and the society in which he lives. Thus we may hope that our school work will result in happy, serviceable lives.

The supervisory activities have been expended in classroom visits, follow-up interviews, personal conferences and frequent school inspections. The two most important steps in improving schools are to improve the teaching and increase the actual attendance.

A statement by our school nurse is printed with this report. Parents should take notice of reports sent home informing them of physical defects, and have these defects corrected. No pupil can do the fine mental work of the school properly if physically handicapped.

Mrs. Eva Thompson is getting the usual fine results in music supervision. Her report is included and is worthy of attention.

Careful attention has been given to directing and supervising playground activities. The importance of physical training for health and development can hardly be overemphasized. Training on the playground in honesty and fair play has very direct values for the school and commun-

ity, because training in fair play is training for citizenship, the fundamental purpose of public education.

For the teachers, the School Board and myself, we express the common desire that a larger number of parents and friends visit the schools. If parents will come to see their children at work, what they are doing, what they are given to do with and how their work is directed, it will give them first hand information concerning our schools.

In closing I wish to express my appreciation of the courtesy and co-operation of the School Board, the teachers and the community.

Respectfully submitted,

W. J. NELSON,

Superintendent of Schools.

REPORT OF THE SUPERVISOR OF MUSIC

To the Superintendent and School Board of Plaistow:

I hereby submit my annual report of the work in music.

There is nothing new in connection with the program. The text books remain the same with the exception of the seventh grade. Three-part music by Ginn and Co. is being used. This is one of a set of books which is a revised and greatly improved edition of the New Educational Music Course. As our books wear out we hope to replace them with this attractive course.

The music memory test in grades seven and eight had to be dropped owing to my illness at the end of last year. Some of the selections on the list are being used again this year. Grades five and six are also working on a memory test with ten selections and composers.

On November 18, the eighth grade presented the operetta Windmills of Holland by Otis M. Carrington. The hall was filled and the audience was generously appreciative of the young people's efforts. The cast consisted of eight characters, all the other members of the class acting as chorus. Commendable solo work was done by both boys and girls.

The end of the year finds me, as always, grateful to the teachers on whose assistance I rely to such a great extent. I wish also to thank the superintendent and school board for their interest and co-operation.

Respectfully submitted,

EVA W. THOMPSON.
